IT SYSTEMS AND SERVICES

CONNECT Computer is a leading full service provider of IT solutions.

Established in 1985, **CONNECT** specializes in network integration, ASP hosting, and disaster recovery solutions. From Small Business to the Enterprise, superior network integration is provided by leveraging thin-client, server-based computing technology for cost savings and efficiency gains.

As certified partners with leaders like Citrix & Microsoft, we assure satisfaction, compatibility and return on a client's IT investment.

Our Services Include:

- ◇ Technology Assessment & Network Analysis
- ◇ Network Design, Upgrade and Consolidation
- ◇ Server and Application Virtualization
- ◇ Hardware and Software Sourcing and Procurement
- ◇ Infrastructure Resiliency and Internet Uptime
- ◇ Installation, Configuration and Training
- ◇ Ongoing Consulting and Management with Live 24 x 7 Help Desk
- ◇ Remote Access and On-Site Support Contracts / Managed Services Contracts
- ◇ Network Documentation and Disaster Planning Services

DATA CENTER HOSTING SERVICES

CONNECTAPPS offers a complete range of hosting solutions that are both cost effective and client specific.

CONNECTAPPS provides each client with a managed solution, including application delivery, data management, licensing compliance and security. Our clients benefit from rapid deployment of new applications and services, increased performance, reliability and unlimited access.

All Inclusive—Trouble-Free Computer Service

At the heart of our solutions is a host of services that guarantee the simplicity, service and security you expect. We not only deliver the applications you see on your desktop, but also maintain the sophisticated hardware, infrastructure and certified personnel necessary to ensure your applications are always available.

Our Services Include:

- ◇ 24 x 7 access to all applications and data
- ◇ 99.9% guaranteed uptime with 24 x 7 network monitoring
- ◇ Live 24 x 7 Help Desk with local desktop support
- ◇ All server, infrastructure and security hardware
- ◇ All Microsoft, Citrix and other selected software licensing on monthly subscription: only pay for what you use
- ◇ Managed backup services with off-site storage
- ◇ Network based anti-virus and anti-spam
- ◇ Personal and public /corporate file storage
- ◇ Both shared or dedicated application and database servers
- ◇ Exchange and POP e-mail, Blackberry & Website Hosting
- ◇ Server co-location, managed and un-managed

DISASTER RECOVERY & BUSINESS CONTINUITY

CONNECT DR offers a complete range of Disaster Recovery and Business Continuation Services that are both cost effective and specific to each client's needs. From disaster preparedness planning to building your complete business continuation infrastructure, **CONNECT DR** has the right resources to provide this critical business component.

CONNECT DR uses our professionally managed data center as a hot or warm failover site for data and applications or off-site data storage.

CONNECT DR specializes in high-availability solutions to protect client networks, making them more redundant and resilient to failure and downtime.

Build Your Business Continuity Plan with CONNECT DR:

- ◇ Disaster preparedness planning
- ◇ Network documentation
- ◇ Off-site data replication, storage, and retrieval
- ◇ 24 x 7 recovery services
- ◇ High-availability solutions for our client's networks and infrastructure
- ◇ Hot application fail-over capability to **CONNECT Data Center**
- ◇ Recovery services with shared or dedicated servers including application servers and remote access for all users
- ◇ Live 24 x 7 Help Desk during disaster
